C'est la Vie

Stewart & Kyle (?)

```
     C                    Gm
1.   The air that once was humming
          A7
     Has strangly changed its tune
   Dm                    Dm(C)              Dm(H)
     Or is it just there's nothing left to sing to
     Gm
     Chairs need rearranging
           A7
     There's papers on the floor
     Dm              Dm(C)              Dm(H)
     Are you going down or will you wait for me
```

CH **CHORUS:**

```
               F     G                        Em   Am
     C'est la Vie, that's the way things go
                         Dm         Dm(C)
     Bite the hand that feeds you
                   Dm(H)
     Never let it go
               F     G                        Em   Am
     C'est la Vie, that's the way things go
                        Dm         Dm(C)
     You can turn your head away
                     Dm(H)
     Never let it show
```

```
2.   All the doors are closing
     To the sound of lock and key
     The time it seemed would never come is here
     Every things gone quiet
     The lights have dropped down low
     And have you got some place to go
```

CH **CHORUS**

```
END  Gm                                   A7
     Though the years have passed you by
                  Dm   Dm(C)     Dm(H)       C
     It's not too late  ...  to try ... at closedown
               F                G            C
     A - A - A - Are you going down ... at closedown
               F                G            C
     A - A - A - Are you going down ... at closedown
               F                    G            C
     A - A - A - Are you going to drown ... at closedown
```
